Project Background
The Okanogan Conservation District (Okanogan CD) is working with a grant from the National Fish and Wildlife Foundation (NFWF) to develop designs for a wetland/stream restoration project on Johnson Creek near Okanogan, Washington.

Project Goals
The landowner and project partners are interested in improving water quality and habitat on a 17-acre wetland by restoring more natural hydrology through the implementation of channel improvements and restoration of native riparian/wetland vegetation. The project should also reduce seasonal flooding near a home, where there are structural concerns and water quality issues.

Opportunities to maintain some agricultural productivity should be considered. The design should utilize natural features and low-impact techniques as much as possible while achieving the goals of the project.
**Background**
The project site is a 17-acre privately owned hay field, bisected by 1,750 feet of Johnson Creek, a perennial stream which flows to the Okanogan River. The creek was straightened and channelized, and natural vegetation was converted for agricultural production in the early 1900’s.

Wildfires in 2015 burned peat soil on the site. Paired with altered hydrology in the watershed post-fire, has led to persistent ponds, a seemingly elevated water table and inundation of the field during 2016, 2017 and 2018. The site is bordered on the east (the downstream end) by Conconully Highway, a county road, and a likely undersized culvert. The main culvert is 5 feet in diameter with a 3 foot diameter overflow culvert. A design to restore the site may include replacing this crossing to improve water conveyance, which has been initially discussed with stakeholders.

Currently, the creek supports rainbow and brook trout and is potential habitat for endangered steelhead. Downstream fish passage improvements may increase steelhead presence at the site. Adjacent properties support shrub-wetland vegetation.

**Available Site Information**
Historic photos (1940’s), simple barrier survey on the County road, downstream habitat and water quality data, and drone flyover footage of the property. Channel/riparian condition on adjacent properties may be considered as ‘natural’ (not actively managed) condition.

**Scope of Work**
Designs need to be completed to Bonneville Power Administration (BPA) HIP III standards. This includes:

- 15% conceptual design
- 30% preliminary design with an associated Basis of Design Report (BDR)
- 80% design (responding to questions and concerns from the 30% design)
- A Final engineer stamped design.

Each stage will be reviewed by the BPA RRT (Technical Team). Submission to the RRT and comments will be communicated over email.

This list of tasks is meant to serve as a guideline for preparing a non-cost proposal. A final, more detailed scope of work should be presented in the response to this RFQ and will be negotiated with the selected firm.

**Task 1.  Preliminary Assessment and Planning**
- Review information provided by Okanogan CD and partners, identify data gaps
- Attend kickoff meeting and site reconnaissance (same day)

**Task 2.  Data Collection and Review**
- Review available information. Collect topographic, hydrologic, hydraulic, and geomorphic data as needed to clarify conditions of the project site and vicinity.
- Interpret ground and surface water monitoring and summarize data in memo format.

**Task 3. 15% Conceptual Project**
- Conceptual project plan will be reviewed by the landowner, and the RRT

**Task 4. 30% Preliminary Design (Okanogan CD and project partners will identify preferred alternative)**
- Draft Basis of Design Report (plan, profile, specifications)
- Preliminary design drawings including: base maps, topographic data, preferred alternative plan view and profile, planting plan (see below), details for any habitat features.
- Draft planting plan for riparian area. Okanogan CD can provide expertise on appropriate plants for the region and successful implementation strategies, if needed.
- One meeting to present preliminary designs to the landowner, and one meeting which includes agency stakeholders, which will be organized by Okanogan CD.

Okanogan CD is partnered with fish habitat and stream ecologists to help incorporate biological considerations into the design. If your firm has staff that can fill this role please highlight their qualifications.

**Task 5. 80% Final Design**
- Incorporate review comments into near-final design drawings. The drawings should contain sufficient detail to implement construction and for the US Army Corps, WA Dept. of Ecology and WDFW to permit the project.
- Draft technical specifications.
- Draft construction quantities and cost estimates.

**Task 6. Final Stamped, Permit-level Designs**
- Final Basis of Design Report
- Bid documents (drawings and technical specifications) suitable for the US Army Corps, WA Dept. of Ecology and WDFW to evaluate and permit the project.
- Final construction quantities and an estimate of constructions costs.

**Task 7. Project Management/Other**
- Monthly invoices with progress reports
- Maintain frequent communication with Okanogan CD
Please also address the capacity for your firm to complete the following items, which may not be included in the final agreement.

- Permit application assistance
- Construction oversight

   B. Okanogan CD may make and retain copies of such documents for its information and reference in connection with their use on the project. The Consultant does not represent or warrant that such documents are suitable for reuse by Okanogan CD or others, on extensions of the project or on any other project.

16. CONFIDENTIALITY.
   A. The Consultant understands that any records (including but not limited to bid or proposal submittals, the Agreement, and any other contract materials) it submits to Okanogan CD, or that are used by Okanogan CD even if the Consultant possesses the records, are public records under Washington State law, RCW Chapter 42.56. Okanogan CD must promptly disclose public records upon a request to Okanogan CD, unless a statute exempts them from disclosure. The Consultant also understands that even if part of a record is exempt from disclosure, the rest of that record generally must be disclosed.
   B. The Consultant will fully cooperate with the District in identifying and assembling records that may be in the possession of the Consultant in case of any public disclosure request.
   C. The Consultant will possess, or have access to, information (both materials and information provided by the District or prepared for the District, as a result of the Work). This information is likewise to be treated by the Consultant as confidential. The Consultant will not permit the duplication or disclosure of such information to any persons (other than its own employee, agent or representative who requires such information for the direct performance of the Consultant obligations hereunder), unless such duplication, use or disclosure is specifically authorized in writing by the District. Such information does not include ideas, concepts, know-how or techniques related to information that, at the time of disclosure, is in the public domain unless the entry of that information into the public domain is a result of any breach of this Agreement. Likewise, information does not include that which has been independently developed, already possessed without obligation of confidentiality, or rightfully obtained from a third party without an obligation of confidentiality.

17. DISPUTES.
   Any dispute or misunderstanding that may arise under this Agreement shall first be through negotiations, if possible, between the Consultant’s Project Manager and Okanogan CD’s Project Manager. If necessary, it shall be referred to the District Manager (Okanogan CD) and the
Consultant’s senior executive(s). If such officials do not agree upon a decision within a reasonable period of time, either party may decline or discontinue such discussions and may then pursue the legal means to resolve such disputes, including but not limited to alternative dispute resolution processes. Nothing in this dispute process shall in any way mitigate the rights of Okanogan CD to terminate the contract. Notwithstanding all of the above, if Okanogan CD believes in good faith that some portion of the Work has not been completed satisfactorily, Okanogan CD may require the Consultant to correct such work prior to payment. In such event, Okanogan CD will provide to the Consultant an explanation of the concern and the remedy that Okanogan CD expects. Okanogan CD may withhold from any payment that is otherwise due, an amount that Okanogan CD in good faith finds to be under dispute, or if the Consultant does not provide a sufficient remedy, Okanogan CD may retain the amount equal to the cost to Okanogan CD for otherwise correcting or remedying the work not properly completed.

18. TERMINATION.
   A. For Cause: Okanogan CD may terminate the Agreement if the Consultant is in material breach of any of the terms of this Agreement, and such breach has not been corrected to Okanogan CD’s reasonable satisfaction in a timely manner.
   B. For Reasons Beyond Control of Parties: Either party may terminate this Agreement without recourse by the other where performance is rendered impossible or impracticable for reasons beyond such party’s reasonable control, such as but not limited to, an act of nature, war or warlike operation, civil commotion, riot, labor dispute including strike, walkout or lockout, except labor disputes involving the Consultant’s own employees, sabotage, or superior governmental regulation or control.
   C. For Okanogan CD’s Convenience: Okanogan CD may terminate this Agreement at any time, without cause and for any reason including Okanogan CD’s convenience, upon written notice to the Consultant.
   D. Notice: Notice of termination pursuant to this Section shall be given by the party terminating this Agreement to the other, not less than five (5) business days prior to the effective date of termination.
   E. Actions upon Termination: In the event of termination, the Consultant shall be paid for the services properly performed prior to termination, together with any reimbursable expenses then due, but in no event shall such compensation exceed the maximum compensation to be paid under the Agreement. The Consultant agrees that this payment shall fully and adequately compensate the Consultant and all subconsultants for all profits, costs, expenses, losses, liabilities, damages, taxes and charges of any kind whatsoever (whether foreseen or unforeseen) attributable to the termination of this Agreement.
   F. Upon termination for any reason, the Consultant shall provide Okanogan CD with the most current design documents, contract documents, writings and other products the Consultant has produced to the date of termination, along with copies of all project-related correspondence and similar items. Okanogan CD shall have the same rights to use these materials as if termination had not occurred; provided however, that Okanogan CD shall indemnify and hold the Consultant harmless from any claims, losses, or damages to the extent caused by modifications made by Okanogan CD to the Consultant’s work product.

19. MISCELLANEOUS PROVISIONS.

otherwise, regarding the subject matter of this contract shall be deemed to exist or to bind any
of the parties thereto.

and directives of their administrative agencies and the officers thereof. Without limiting the
generality of this paragraph, the Consultant shall specifically comply with the requirements of

affected thereby, and each term and provision of this Agreement shall be valid and enforceable
to the fullest extent permitted by law.

I. Waiver: No covenant, term or condition or the breach thereof shall be deemed waived, except
by written consent of the party against whom the waiver is claimed, and any waiver of the
breach of any covenant, term or condition shall not be deemed to be a waiver of any preceding
or succeeding breach of the same or any other covenant, term of condition. Neither the
acceptance by Okanogan CD of any performance by the Consultant after the time the same shall
have become due nor payment to the Consultant for any portion of the Work shall constitute a
waiver by Okanogan CD of the breach or default of any covenant, term or condition unless
otherwise expressly agreed to by Okanogan CD in writing.

J. Negotiated Agreement: The parties acknowledge that this is a negotiated agreement, that they
